# How To Play

To start, you will roll the dice by clicking Roll. After rolling you can either score the current roll on the scorecard or re-roll any or all of the dice\*. You may only roll the dice a total of five times. After the fifth roll you must choose a category on the scorecard to score your hand in. You must choose a different category each time i.e., you can NOT score your hand in a category you have already scored.

To keep a die value enter 'y' in the same order that the die appeared. Enter 'n' to re-roll. For example, if the roll is Jones, Hachimura, Norvell, Tillie, Perkins to keep Jones, Norvell, and Tillie and re-roll the others you would enter: 'ynyyn'.

\*Note: For example, after the first roll you can keep 4 dice and re-roll the fifth die. Then you can choose to keep all of the die and end that round or keep the first 2 die and roll the next 3 and continue...

# Scoring

- The scorecard is split into upper and lower sections.

Next

Main Menu

# Upper Section

- The upper section scores only the player used during that turn. Their score is based off their player number, for example, getting Johnathan Williams 3 times, and Jesse Wade 2 times, will score 9 points for the Williams section, and 20 for the Wade section.
